

# THE SENSER FOUNDATION

Digital Transformation for Nonprofits  
**Develop digital tools, infrastructures, and strategies  
to manage new challenges**

## Digital Transformation

Over the past four decades, the world has undergone three major technological revolutions. Each revolution changed how people, companies, and even countries operate. However, this change is only reflected by a small percentage of social organizations. To propel the social sector towards this change, the Senser Foundation has focused its energy on Digital Transformation for nonprofit organizations.

The Lean Digital Transformation Model (LDTM) focuses on capacity-building and enabling to leverage growth opportunities through digital solutions. The goal is to increase internal productivity and outcomes through the effective use of technology. Over the past three years, over 20 organizations have successfully streamlined their work processes and grown through this process.

This process has been rolled out with resounding success. This Model was custom-made and developed by Philtech and Marom Group, specialists in digital transformation and strategic consulting for the social sector. We are now starting our fourth cohort of participants. The LDTM allows nonprofits to serve their clients better, seize growth opportunities, and reduce technology costs while increasing internal productivity. We invite you to join us.

**Now welcoming the fourth cohort of the LDTM, the Senser Foundation is looking to advance its mission by partnering with organizations active in the following areas:**

- Women's rights, security, and empowerment
- Social and religious diversity in Israel
- Strengthening marginalized communities
- Next-generation engagement with Jewish peoplehood
- Liberal and democratic values

### **Potential LDTM outcomes include:**

- Innovate for impact - preserve and increase organizational impact
- Engage beneficiaries, donors, and volunteers
- Optimize operational processes - CRM, database, project management
- Expand fundraising possibilities and marketing strategies

# Project Overview

LDTM Timeline	Methodology	Estimated Timeframe	Deliverables
Assessment phase	Digital questionnaires In-person/virtual meetings	8-10 weeks	<ul style="list-style-type: none"><li>Digital maturity assessment</li><li>Design thinking workshop</li></ul>
Analysis and strategic recommendations	In-person/virtual meetings	6-8 weeks	<ul style="list-style-type: none"><li>In-depth analysis of gaps and growth opportunities</li></ul>
Work plan	Virtual meetings	4 weeks	<ul style="list-style-type: none"><li>Project milestones and deadlines</li><li>Defined KPIs</li></ul>
Implementation	Virtual meetings	16 weeks	<ul style="list-style-type: none"><li>Collaborative program execution</li><li>Training in new systems</li><li>Strategic guidance</li></ul>

The Senser Foundation will award grants of up to \$50,000 in services and infrastructure under the LDTM. The process should take about 10 months from start to finish.
