FOUNDATION

Invitation to Participate in a HealthTech Hackathon
Leveraging AI, Data, and Automation for Mental Health

Following the tragic events in Israel on October 7th, a critical need for mental health and trauma intervention in Israeli society and the Jewish world has become apparent. In response, The Senser Foundation is pleased to announce a unique opportunity for nonprofits to participate in a HealthTech Hackathon, aiming to encourage social organizations to harness technological advancements for innovative solutions to address this gap.

Hackathon Details

Theme: How can AI, Data, and Automation Improve Your Organization's Impact on Mental Health?

Date: April 1st - 3rd, 2024

Location: Online

Participants: 7 organizations, each with 3-4 participants

MAROM GROUP

PHILTECH
DIGITAL & INNOVATION
PHILANTHROPIC SOLUTIONS

Hackathon Experience

The hackathon is not just a competition; it's a transformative journey of learning, collaboration, and innovation.

What to Expect

- Inspiring keynote speaker
- Expert mentors
- Teamwork
- Networking opportunities
- Hands-on experience

Outcomes

- **Incorporating AI-driven Innovations:** Organizations will outline AI-powered solutions to scale their mental health services and reach broader audiences.
- **Capacity Building:** Participants will acquire knowledge and skills in AI implementation, design thinking, entrepreneurship, and problem-solving.
- **Collaboration and Networking:** The hackathon will foster valuable opportunities for organizations and participants to collaborate and network.

The Prize

The chance to turn your proposed AI solution into reality through an implementation process fully funded by the Senser Foundation.

Pre-Hackathon Learning

Before the event, two webinars will be offered for interested organizations, covering AI tools and inspiring use cases of AI and data-based storytelling in the social sector.

Register for the Webinar

Data-based storytelling and nonprofit use cases

March 18th:
Q&A Session for selected organizations

April 1st:
Hackathon kickoff

April 3rd:
Winner Announcement and Closing Session

Eligibility Guidelines

Your organization is eligible if it is an American nonprofit or an Israeli nonprofit associated with a 501c3 organization in the United States.

Your organization's focus is one of the following areas:

Responding to the unprecedented situation in Israel following the events of October 2023

Women's rights, security, and empowerment

Social and religious diversity in Israel

Strengthening marginalized communities

Next-generation engagement with Jewish peoplehood

Fostering liberal and democratic values

For the hackathon, your organization should be prepared to focus on solutions regarding mental health.

Is your organization a good fit?

Join us for the <u>first webinar</u> to find out more!
